Kern 440-49N precision

This is the ideal entry-level model for all laboratory technicians. There is no better scale offering such value for money in this performance class! The 440 has multiple functions covering lots of user applications. E.g. you can use it for parts counting and also for weighing different mixtures. 5 Key operation for easy use no complicated set-up. It is so easy to weigh: Press ON key - zero digit appears - place product - read the digital weight display.

Protective working cover and mains adapter is supplied as standard. Total balance dimensions WxDxH 165 x 230 x 80 mm. Stabilization time approx. 3 sec, permissible ambient temperature +10°C ... +30°C, Mains adapter 240 V as standard. (Adapter supplied relevant to country usage) Can be operated on a PP3 9V Battery (not supplied).

My Weigh briefcase scale

The BCS 40 and BCS 80 are portable, light industrial bench "Briefcase Scales". These scales are extra durable and designed for weight checking, and all light industrial uses. They also make great shipping scales.

Their rugged portable design has made them a proven winner in the field for geology, refrigerant, archeology, and more! The ultra-portable design allows you to bring the scale to the item to be weighed - rather than bringing the item to be weighed to the scale!

The scale can also be removed from its case and installed as a regular shipping scale with an optional AC adaptor

Fuzion IP-100

The IP-100 is a stylish and compact digital pocket scale from Fuzion X which features a protective cover that appears to the untrained eye to be a completely innocent i-Pod. The lid fastens tight though and the scale is hidden safely within.

The touch screen LCD display buttons further add to the sleek design and it also comes with a detachable strap for ease of carrying, assuming you have already filled your pockets with things that need weighing.

Dalman Miniscule DM-300

Miniscule! Wow, that's TINY! This super small scale has flexibility and convertibility. The cool sleek steel scale is protected by two pieces of durable and sturdy covers that can be flipped into convenient trays.

When this little guy is not in use, you can use the vinyl pouch as an added layer of protection. It has an easy to use 3 button configuration and the backlit LCD provides visual readability.

The outstanding range on this tiny portable scale is from 50 grams* to 300 grams* with a resolution of 0.1* or 0.01* of a gram.
